

Yoga and Wellness Retreat Back to Earth Belize

19-26 November 2011
and
28 April–5 May 2012
at
The Lodge at Big Falls

Yoga and Healing Retreat

Whether you are a longtime practitioner of kundalini yoga or are brand new to it you will have a great experience at this retreat.

For those who are familiar with kundalini yoga and have been practising for some time this workshop will give you the opportunity to deepen your practice. We will focus on kriyas for healing, internally and externally, working with the immune and glandular systems of the body.

We will also focus on postures, their correct alignment and the basic movements that are common to all forms of yoga. As experienced practitioners you know that the most important part of kundalini yoga is to deepen our awareness and have an experience, and there will be ample opportunity for that.

If you are new to kundalini yoga this retreat will give you a wonderful chance to go deep within this most ancient form of yoga for yourself and gain a practical understanding of how the body itself can be used to access higher levels of consciousness. With two sessions a day we will use the morning session to focus on the more physical yoga sets or kriyas, and the afternoon sessions for going deeper into meditative states.

This retreat is a unique opportunity to couple your yoga practice with connecting to the people and environment of Belize, and there are many opportunities to do this. If you are looking for something truly different this is your chance. It promises to be an unforgettable journey back to self and back to the earth.

Caroline Barnes, yoga name Himat, has taught yoga for over ten years and taught the Sunday evening yoga class at Yoga Phoenix from 2000 until March of this year when she moved to Belize. She created a chair yoga series for seniors and is skilled at working with people of different levels of strength and flexibility. All postures are possible for everybody with a little adjustment and the benefits are the same. All the yoga sets and meditations will be available as a workshop package which can be taken home for further practice. If you have any questions about the yoga contact Caroline.

The daily program includes tours to a medicinal herb plantation tended by Mayan healers, to two Mayan archaeological sites an organic cocoa farm and other authentic cultural experiences.
